

BILL CHANGING ROAD LAW IS PASSED IN SENATE

House Puts Through Bill For Distribution of Automobile Fund Among Counties of State

Frankfort, Ky., March 6.—Sentiment in the senate for a change in the present road law of Kentucky is as strong as in the House and the upper house on Thursday passed a bill making a number of changes in the road law, which, it is believed, will prove very popular with the people. Senator Charles Montgomery, of Casey county, had incorporated in the law which was fathered by Senator Bosworth, amendments which contain the main provisions of the bill which Representative Sautley helped put through the House last week. These include giving county the option of having the road engineer system or not as it desires, and providing means for working of the roads by the overseer and warning out of hands system. Senator Montgomery did fine work in getting these amendments in the bill, and it went through with a whoop.

The House passed another good road bill this week which will undoubtedly prove very popular all over the state. This was a bill offered by Representative Greene, of Carroll county, and provides for a distribution of the money in the good roads fund of the state for the purpose of building better roads. This road fund is collected from owners of automobiles, the owner of each machine paying a license. There is said to be something like \$300,000 and equally among all counties of the state is getting bigger every year as motor cars become more numerous, so that there will be quite a nice little sum for each county coming out of this fund each year for the benefit of better roads in the various counties. All four of the representatives of the thirteenth judicial district, Representatives Mount, of Garrard, Smith, of Mercer, Farris, of Boyle, and Sautley, of Lincoln, supported this bill.

After today (Friday) there are but nine more days of the legislative session. The members of the House have been considering the new tax law all week, which is designed to raise funds to pay the state out of debt by bringing to light hidden property now escaping taxation, such as stocks, bonds, notes, etc. Every effort has been made to shape up the bill so that there will be no possible chance to increase taxes on the farmers of the state who already are paying the principal and chief burden of taxes. This bill is a very important one and one in which every taxpayer in the state has a vital interest.

Realizing this, Representative Sautley, of Lincoln, has offered an amendment, providing that the bill shall not become effective or have any force and effect until the question of whether the people want this law or not shall have been submitted to a vote of the people of the state. At the time this is being written the Sautley amendment has not yet come up to a vote. A great many of the members of the House, realizing the intense importance of this bill, have declared that they will not vote for it unless the House adopts the Sautley amendment, and puts it directly up to the people as to whether they want the law or not. Representative Sautley said on the floor of the House that if he had his way, he would like to see the people given a chance to vote on any measure that the legislature might enact, in order to say whether they approve such a law or not.

Elaborate arrangements are being made for the unveiling of the monument to Gov. William Goebel, which stands in front of the new capitol building. A committee of five from both the Senate and House has been named to have charge of the program, etc. Speaker Terrell announced the following as House members on the committee to arrange the program for the unveiling of the monument: Harry J. Meyers, L. B. Tieman, Matt S. Walton, John C. Duffy and Shelton M. Sautley. The unveiling will be held March 11.

Both houses on Wednesday listened to a communication from President Woodrow Wilson in which he expressed he could not vary from his rule not invitation to address the Kentucky Educational Association. He explained he could not vary from his rule not to make any addresses apart from official business.

Five new measures were introduced in the House and two in the Senate Wednesday. One measure was reported favorably in the Senate, that of Senator Brock reducing the appropriation for the boys' corn club from \$10,000 to \$5,000.

The House passed Senator Tunis' measure which had passed the Senate, requiring State and local boards of Health to conduct courses in the study and prevention of infectious eye diseases, were passed in the House, the latter now going to the Governor for his signature.

W. A. Shawler's measure providing for the division of the State into twenty-five legislative districts; Shelton M. Sautley's bill for a vote on the advisability of calling a Constitutional convention and G. P. Durrett's measure to include Adair county in the Eleventh Judicial District were reported without any expression of opinion by committees to which they were referred and given their first reading.

Among the measures reported favorably, Wednesday were J. G. Coke's bill to prevent fraudulent transactions in securities and to license dealers in securities; J. C. Lay's measure requiring County Clerks to preserve primary and election stub books; W. T. McNally's two bills, defining and punishing barratry and making voidable hasty settlements for personal injuries; L. B. Tieman's measure making it unlawful for persons for hire to aid in securing marriage licenses; John H. Klette's bill compelling plaintiffs in divorce actions to give bond for costs; Harry J. Meyers' bill providing an automobile for County Engineers; Matt S. Walton's bill requiring tobacco warehouses to keep daily account of the sales of tobacco with the type sold and providing for a monthly report to the Department of Agriculture, and John H. Klette's bill authorizing Second Class Cities to regulate rates of public service corporations and acquire their plants by condemnation.

The Smith bill, to punish the making or using of false statements to obtain property or credit, which has passed the House, was called up in the Senate by Senator Durham, of Simpson, under a suspension of the rules, and was passed by the vote of 30 to 0. Another bill passed by the Senate was the Knight measure to regulate the rates of express companies and place them under the supervision of the State Railroad Commission. It received 27 votes and no one voted against it.

The Frost bill, embodying a comprehensive corrupt practices act to govern primary and general elections, was advanced on the Senate calendar after the Committee on Suffrage and Elections had reported the measure without expression of opinion. The measure is based on the law recently passed in New Jersey.

The same action was taken on the Glenn bill, relating to corrupt practices in primary elections, which was reported by the committee in the same way.

At the night session of the House Wednesday night bills were reported favorably as follows:

Requiring corporations publishing periodicals in First Class Cities to have \$2,000 paid-up capital stock.

Allowing prison guards extra pay for working more than 60 hours a week.

Empowering mayors of cities of the fourth class to discharge policemen for cause.

Limiting the venue of a suit for damages for negligent or wrongful death to the State of Kentucky and to the State of the decedent's domicile.

Providing for stenographers for county courts.

Giving county judges and magistrates exclusive jurisdiction of penal cases in which the limit of fine is \$20 and county judges jurisdiction of penal cases in which the fine is \$100 and jail sentence not exceeding 50 days, and jurisdiction in all misdemeanor cases. (This has already passed the Senate.)

Amending the indeterminate sentence law. (Already through the Senate.)

Authorizing the Board of Prison Commissioners, with the approval of the Governor, to grant paroles and regulating same. (Through the Senate.)

Garnet May Run for Congress

The Lexington correspondent of the Cincinnati Enquirer had the following item in its Sunday political letter:

According to a statement made at Denocrat this week by a prominent Democrat from the Eighth Congressional District, a movement is on foot to induce Attorney-General James Garnet, of Columbia, who all along has been regarded as having gubernatorial aspirations, to enter the race for Congress against Representative Harvey Helm, of Stanford. These friends of General Garnet, it is said, are of the opinion that dissatisfaction over patronage matters has made it possible for a strong Democrat to defeat Representative Helm, who is serving his fourth term and who is regarded as one of the best mixers in his section of the state. It has been said that Henry Jackson, of Danville, might become a candidate, and Representative Merriweather Smith, of Harrodsburg, and County Judge W. R. Shackelford, of Richmond, have also been spoken of as possibilities, but it is claimed that none of these gentlemen would enter should General Garnet decide to run.

"The Garden of Allah" in Louisville

"The Garden of Allah", the success of the Century will be the attraction at Macaulay's Theatre, Louisville, week of March 16. The play is a dramatization of Hichen's novel which was one of the best sellers a few years ago, and closely follows the novel. The monk pines for freedom and human love, who violates his oath and bursts his bond, and, who by so doing, brings misery on himself and upon a pure and noble woman, is a figure as old as the monastic idea itself. What is new is Hichen's setting of the subject.

He unrolls the tragedy in the magical atmosphere of the Sahara Desert—the great awe-inspiring waste where the spirit of eternity seems brood; the place which the Arabs have so poetically named "The Garden of Allah." Hichen's book achieved its great success because it is a masterpiece of descriptive writing and of mythical suggestion.

Those responsible for the dramatization of the book have recognized to the full secret of the book's success. They have accordingly taken for more than ordinary pains to reproduce the "atmosphere" of the story. They first made a pilgrimage to the scenes described and there on the spot they studied and designed the stage appointments of the play, and gathered up much of the human and other material. The result is a remarkably faithful portrayal of the spirit of the story, and a really extraordinary attractive series of artistic stage pictures.

To witness the play is to witness a series of kaleidoscopic pictures showing the desert in all its moods. They follow one another in rapid sequence. First there is the sunrise on the desert with its strange indignant caravan, and the figure of the Arab dismounting from his camel to worship the sun. It is but a flash scene yet how eloquent in its silence and mystery it is. Then there is the road to the monastery in the forest near Tunis with the strange and tragic figure of the monk battling with himself and destiny. This again, is but a flash, and then there bursts upon the delighted vision of the audience the veranda of the Algerian hotel, with its gay crowds of Arabs in front of it, and beyond the desert, increasing, in its call, fascinating in its stern, strange beauty.

Three great scenes there. There has been little of dialogue, and little of action, yet already we have been carried into the heart of the story, and feel its tragedy gripping at the heart. So far it has been the spell of the desert. Now comes even the warm strange smell of the East—a vision of an Arab city street, with its boisterous crowds of merry-makers, tourists and beggars and the girls dancing in the windows. This is changed again to the inside of one of the houses, with its wild Eastern girls, the barbaric Ethiopian entertainers and the strange music and costumes of the half-savage natives.

Always the same two figures moving through the panorama, the nervous, unconfident monk who has escaped after nineteen years of monastery life, and the girl who is touring the East alone. Then comes the beautiful garden of the gentle and unhappy Count Atoni, with its tropical luxuriance and its poetic Arab piping of love. And last the Great Desert of Mogar, seen in the magic of an Eastern light, the fury of a devastating dust storm, and the eternal beauty of the dawn. Ere it is that the story reaches its climax.

TRUTH TRIUMPHS

Stanford Citizens Testify For The Public Benefit

A truthful statement of a Stanford citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Stanford citizen tells of Doan's Kidney Pills. "Could you demand more convincing proof of merit?" B. Holderman, Stanford, Ky., says: "I used Doan's Kidney Pills and they proved to be just as good as advertised and I recommend them. My kidneys were weak and I had backache. Hearing Doan's Kidney Pills highly praised, I used them and they completely relieved me."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Holderman had—the remedy backed by home testimony. 50c at all stores. FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25-Cent Bottle Of Danderine Right Now

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life force; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance and incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

DISASTROUS FIRE AT HIGHLAND

Early Wednesday Morning, Destroying Several Buildings

A very disastrous fire occurred at Highland Wednesday morning about three o'clock, which destroyed the general merchandise store and dwelling house belonging to John Rogers, a tobacco warehouse belonging to John Baugh and the building used as the voting booth. The furniture of John Lutes, who had recently sold the store and dwelling to Mr. Rogers, which was stored away in this warehouse was consumed in this fire. It is said that this fire started in the warehouse. The origin of the fire still remains a mystery to the citizens of that section. It looked much like the work of incendiaries that the blood hounds were sent for. They found a trail and followed it within a half a mile of Waynesburg, where they completely lost trail. It is not known whether they were on the right trail or not. All the parties carried insurance, which amounted to \$1,700. The amount on the store was \$1,000 on the warehouse \$300 and on the furniture \$400.

Why not be on the safe side and keep your property insured in the reliable companies represented by Jesse D. Wearan, the Insurance Man?

"BIG" COURT CONVENED

MONDAY AT LIBERTY

Docket Not Very Full—Casey Democrats Solid For Beckham—Other News

Yosemite, March 6. Monday was the first day of "big" court at Liberty, and there was a big crowd in town. Judge J. C. Carter was on hands to start the wheels of justice, but little was done in the forenoon and only a few unimproved cases disposed of in the afternoon. The docket is said to be light, there being no murder cases to try, and no important civil cases on the docket. There was but little political talk, but we took occasion to interview democrats from different sections of the county in regard to the senatorial race and found that Casey Democrats are absolutely solid for Beckham.

Pat Whipp is snugly installed in the postoffice with Miss Della Phillips and Dallas Rule, as assistants and the patrons of the office are highly pleased. The merchants were doing a land office business, regardless of the fact that a democrat presides at Washington.

Mr. E. H. Kidd, who is going out of the merchandise business had an auction in the afternoon that took most of the crowd from the court house. Henry Thomas, the Casey county news man, was on hands, as auctioneer and he disposed of quite a lot of news and merchandise.

E. C. Moore, the new county attorney, was busy acting in the capacity of commonwealth attorney in the absence of A. A. Huddleston, who was detained at home.

Several horses and mules were offered for sale on the streets, but very few of them were sold. The patent medicine man was conspicuous for his absence hence no attraction for suckers.

Several of our people are either doing service as witnesses before the grand jury, or as jurors. Among the latter we noticed J. C. Fogle, W. T. Miller, Oscar Elliott, W. T. Moore and McD. Fogle.

HAD CATARRH FIVE YEARS.

Mr. Johnson of St. Elmo, Illinois, was troubled five years with catarrh. The catarrh was so severe in his case that his life seemed threatened. As he expressed it himself, he had "one foot in the grave."

Of course he tried to get relief. Many practitioners were consulted and a catarrh specialist in St. Louis was tried. He got so weak and thoroughly run down that he declares he could not walk more than a hundred yards without resting.

Few people understand that catarrh is a constant drain on the system. The discharge of mucus which is going on in such cases is largely composed of blood serum, and is a great waste. Sooner or later it will weaken the strongest man.

According to reports received from Mr. Johnson, he was in a desperate condition, but he found relief from his trouble. We will let him say how he found it. His own words say:

"My friends told me to take Peruna, and I did so. I now feel that Peruna has saved my life. It is the best medicine on earth, and I would not be without it."

This seems almost too good to be true. No doubt there are some readers that will think so. The above statements, however, can be verified by writing Mr. Johnson.

Every home should be provided with the last edition of "The Ill of Life," sent free by the Peruna Co., Columbus, Ohio.

Retired Georgia Planter's Advice To Kidney Sufferers
Regarding the wonderful curative merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys, I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one-dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter, 70 years of age, and owing to Dr. Kilmer's Swamp-Root, I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it. Sincerely yours,

C. E. USSERY,
Brownsville, Ga.

Personally appeared before me, this 5th day of September, 1909, C. E. Ussery, who subscribed the above statement and made oath that the same is truth in substance and in fact.

T. H. McLANE,
Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Interior Journal. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

A stock law will soon be enforced in our town. It is something we have been needing for a long time. There are a number of good white citizens who have roughish hogs that go where they please regardless of gates and fences.
